VOLUME 17

Table of Contents

Steroid-Protein Interactions. XXIII. Nonidentity of Cortisol-Binding Globulin and Progesterone-Binding Globulin in Guinea Pig Serum. ROBERT M. BURTON, GEORGE B. HARDING, NANCY RUST and ULRICH WESTPHAL 1

Estrogenic Stimulation of Cytidine Uptake by the Uterus. DAVID L. GREENMAN 17

Partial Purification of a Beef Adrenal Δ^5-3-Ketosteroid Isomerase and Studies of Its Mechanism of Action. S. MUROTA, C. C. FENSELAU and PAUL TALALAY 25

Comparison of Cavian and Murine Glucosiduronidation of Estriol and Estradiol. D. G. SPAETH and W. R. SLAUNWHITE, JR. 39

A New Fluorometric Method for the Determination of Aldosterone. W. GODICKE and UTE GERIKE 59

Steroid Hormone Formation in the Human Ovary: VII. Stability of the Profile of Radioactive Steroids formed from Acetate-1-^{14}C by the Corpus Luteum *in vitro*. WILLIAM J. LE MAIRE, H. ALI ASKARI and KENNETH SAVARD . . 65

Hydrolysis and Decomposition of Urinary 17-Oxosteroids in Acid. MARY G. METCALF 85

Hydrolysis of Steroid β-N-Acetylglucosaminides by β-N-Acetylhexosaminidase. YU-TEH LI, SU-CHEN LI and DAVID FUKUSHIMA 97

Properties of the Estrogen Receptor in the Soluble Fraction of Human Uterus. ROLAND HAHNEL 105

A Simple Enzymatic Method for the Synthesis of 2-Hydroxy[4-^{14}C] Estradiol. P. H. JELLINCK and B. J. BROWN 133

Book Review 141

Evidence for the Presence of 17β-Hydroxysteroid Oxido-Reductase and 19-Hydroxylase Systems in Domestic Duck (Anas Platyrhynchos) Adrenal Mitochondria. A. Z. MEHDI and T. SANDOR 143

The Conjugated Estrogens: I. A New Fractionation Procedure Suitable for Large Volumes of Urine. A: Normal Pregnancy Urine (1,2). SAUL L. COHEN and ERKUT ORAN 155

Assessment of Different Corticosteroid Pools During Incubation of Whole and of Quartered Rat Adrenal Glands. J. STACHENKO, D. S. C. LEE and E. NAGY 175

Diethylstilbestrol cis-trans Isomerization and Estrogen Activity of Diethylstilbestrol Isomers. VICTOR W. WINKLER, MELVIN A. NYMAN and RICHARD S. EGAN. . 197

In vivo Conversion of 4-^{14}C Progesterone to Androsterone and Etiocholanolone in Man. JOSEPH W. GOLDZIEHER, LEONARD R. AXELROD and CHARLES S. KAMMER. . . 209

Effect of 17-Hydroxyprogesterone (17OHP) on the in vitro Metabolism of Labelled C_{21} Steroids by Bovine Adrenals. VASANT V. PATWARDHAN and ANDRE LANTHIER. 219

Binding Affinities of Blood Proteins for Sex Hormones and Corticosteroids in Fish. H. C. FREEMAN and D. R. IDLER 233

Testicular Steroidogenesis in vitro in the Rat in Response to Blinding, Pinealectomy and to the Addition of Melatonin. FRANCES PEAT and G. A. KINSON . . 251

Steroids in Newborns and Infants. Identification of Steroids in Urine from Newborn Infants. C. H. L. SHACKLETON, J.-A. GUSTAFSSON and J. SJOVALL. . . 265

Roussel Prize 1972 281

Errata 282

Announcement 283

Urinary Estrogens I. Improved Method for Quantitation of Urinary Estrogens. JOSEPH C. TOUCHSTONE, TARAS MURAWEC, OFELIA BRUAL and MEINERT BRECKWOLDT . . . 285

Urinary Estrogens II. Excretion of Estrogens in Rhesus Monkeys Stimulated with Human Gonadotropins. MEINERT BRECKWOLDT, TARAS MURAWEC and JOSEPH C. TOUCHSTONE 305

17α-Ethynyl-17β-Hydroxy-10α-Estr-4-EN-3-One.
E. FARKAS and D. J. O'TOOLE 317

Theophylline-Induced Potentiation of Estrogen Action.
RONALD T. LAFRENIERE and RADHEY L. SINGHAL 323

Estrogenic and Anti-Estrogenic Activity of
4-Mercuri-17α-Estradiol. ROBERT W. ELLIS and
JAMES C. WARREN 331

Detection of 17β-Hydroxy-5α-Androstan-3-One-^{3}H Following
Administration of Testosterone-^{3}H in the Androgen
Dependent Mouse Tumor, Shionogi Carcinoma 115.
KENJI YAMAGUCHI, TETUO MINESITA, HISANORI KASAI,
KEIICHI KURACHI and KEISHI MATSUMOTO 345

Intramolecular Catalysis. IV. A Radioisotope Method
for Determining Rates of Acetylation of Hydroxy Steroids.
AMIRA SATTAR and ROBERT T. BLICKENSTAFF 357

Determination of 17-Ketosteroids and Adrenocortical
Steroids by Gradient Elution Chromatography on a
Silicic Acid Column. NANCY S. LAMONTAGNE and
DAVID F. JOHNSON 365

Trimethylbromosilane Catalyzed Trimethylsilylation of
Slowreacting Hidroxy- and Oxosteroids in Gas Chromato-
graphic-mass Spectrometric Analysis. L. ARINGER,
P. ENEROTH and J.-A. GUSTAFSSON 377

Synthesis and Biological Activity of 5β-Hydroxy
Analogs of α-Ecdysone. MALCOLM J. THOMPSON,
WILLIAM E. ROBBINS, CHARLES F. COHEN, JOHN N. KAPLANIS,
SAMSON R. DUTKY and RODERICK F. N. HUTCHINS 399

A Modified Technique for the Assay of Progesterone in
Blood Using Celite Column Chromatography. SERGIO STONE,
ROBERT M. NAKAMURA, DANIEL R. MISHELL, JR., and
IAN H. THORNEYCROFT 411

Editorial 423

Book Review 425

The Influence of Pregnenolone-16α-Carbonitrile on
Hepatic Mixed-Function Oxygenases. B. SOLYMOSS,
J. WERRINGLOER and S. TOTH 427

Metabolic Clearance Rate, Urinary and Plasma Production Rates of Testosterone Sulfate in Man. JOSE M. SAEZ, JEAN BERTRAND and CLAUDE J. MIGEON 435

Effects of Adenosine-3′,5′-Monophosphate on Steroidogenesis and Glycolysis in the Rat Adrenal Gland Incubated in vitro. CHARLES P. W. TSANG and FERNAND G. PERON 453

Biochemical Studies on the Incomplete Form of Testicular Feminization Syndrome (1,2). G. PEREZ-PALACIOS, T. MORATO, A. E. PEREZ, E. CASTANEDA and C. GUAL 471

The Metabolism of Progesterone in the Rhesus Monkey (Macaca mulatta). VANGALA V. REDDY, HOWARD BALIN and WILLIAM R. NES 493

Bile Salts of Spontaneously Atherosclerosis-Susceptible White Carneau Pigeon. M. T. R. SUBBIAH, B. A. KOTTKE, I. A. CARLO and K. M. WEAVER 509

Announcement 520

The Transformation of Selected Steroids by *Cylindrocarpon Radicicola*. A New Biosynthetic Pathway for Estrololactone. EDWARD A. KUSNER and RONALD D. GARRETT 521

Cholesterol is Stable. LEWIS L. ENGEL and PHYLLIS BROOKS 531

Hormonal Effects on Hepatic Cholesterol Biosynthesis and Esterification. RICHARD A. JUNGMANN and JOHN S. SCHWEPPE 541

Studies on the Site of Action of o,p′-DDD in the Dog Adrenal Cortex. I. Inhibition of ACTH-mediated Pregnenolone Synthesis. MICHAEL M. HART and JAMES A. STRAW 559

Studies on the Site of Action of o,p′-DDD in the Dog Adrenal Cortex. II. TPNH- and Corticosteroid Precursor-Stimulation of o,p′-DDD Inhibited Steroidogenesis. MICHAEL M. HART, EGBERT S. SWACKHAMER and JAMES A. STRAW 575

Derivatives of 6,6´-Bicholestane from Cholesterol. GERHARD STOHRER 587

On the Mechanism of Steroid Fluorescence in Sulfuric Acid. PART I. The Formation of Trienones. W. SADEE, S. RIEGELMAN and L. F. JOHNSON 595

Errata 607

Errata 609

31-Nordihydrolanosterol, a Minor 4α-Methyl Sterol in Pollen of Taraxacum dens leonis. AHMED M. ATALLAH and HAROLD J. NICHOLAS 611

Studies on Calciferol Metabolism II. Tritium Loss from Tritiated Vitamin D_3 and the Possible Structure of the Proposed Nuclear Regulator of Intestinal Calcium Transport. JAMES F. MYRTLE and ANTHONY W. NORMAN 619

Estradiol-17β and Estrone: Studies on Their Binding to Rabbit Uterine Cytosol and Their Concentration in Plasma. NOBUO NAGAI and CHRISTOPHER LONGCOPE 631

Steroidal Triphenyl Phosphonium Salts, Versatile Intermediates for Side Chain Modifications. J. E. HERZ and SERGIO CRUZ MONTALVO 649

The Allen-Doisy Test for Estrogens Reinvestigated. LARS TERENIUS 653

A Radioimmunoassay for Plasma Progesterone. SHUNSUKE FURUYAMA and CHARLES A. NUGENT 663

Structure of an Estradiol-Glutathione Conjugate Formed in the Presence of Peroxidase. JOHN S. ELCE 675

A Competitive Protein Binding Method for the Measurement of the Unconjugated and Sulfate-Conjugated Dehydroepiandrosterone in Peripheral Plasma. ROBERT L. ROSENFIELD 689

Levels of 16α-Hydroxydehydroepiandrosterone, Dehydroepiandrosterone and Pregnenolone in Cord Plasma of Human Normal and Anencephalic Fetuses. JOHN T. FRANCE 697

Book Review 721

Book Review 722
